HOW WE WORK

A clear path from concept to everyday living.

Each home benefits from a coordinated approach that considers lifestyle, design, and long-term system performance.

01

Lifestyle & design alignment

Define the vision, daily routines, and technology priorities of the home.

02

Systems architecture

Plan infrastructure and product selections for performance and long-term value.

03

Integration & programming

Install, connect, and program every system for intuitive, reliable control.

04

Handover & continued care

Support the transition with maintenance and remote-service options.

SERVICES

Audio, video & home entertainment

Bring cinema-quality sound and picture into the home, with systems designed for comfort, immersion, and effortless control.

Home theatres & whole-home audio

Private theatres and distributed audio tailored to how the home is used.

Outdoor & multi-room entertainment

Distributed video and audio across indoor and outdoor living spaces.

Centralized entertainment control

Movies, music, and multi-room playback from one intuitive interface.

SERVICES

Estate security, access & surveillance

Protect what matters most with security designed to stay discreet, reliable, and fully integrated into the home.

Discreet surveillance & access

Gate and entry access control paired with unobtrusive, high-definition cameras.

Smart detection & alerts

Real-time alerts and remote visibility, wherever you are.

Environmental & life-safety sensors

Smoke, heat, carbon monoxide, flood, and leak detection built into the system.

SERVICES

Centralized control

A home shouldn't need multiple apps or remotes. Bring lighting, audio-video, security, and climate into one intuitive interface.

Unified home control

Lighting, audio-video, security, and climate from a single, seamless platform.

Personalized scenes & automation

Routines that adapt to the way the home is actually used, day to day.

Simplified daily living

Gates, entry, and everyday control without extra apps or complexity.

SERVICES

Enterprise-grade structured cabling

A truly connected home starts with the infrastructure behind the walls, built for performance and future growth.

Commercial-grade infrastructure

Cabling planned for durability, speed, and consistent performance throughout the home.

A foundation for connected systems

Infrastructure that supports security, surveillance, entertainment, and centralized control.

Built with growth in mind

Scalable planning that accommodates evolving technology and higher bandwidth needs.

SERVICES

Whole-home networking

A flawless smart home experience begins with a powerful network, planned around the way the home is used.

Seamless Wi-Fi coverage

Strategically placed access points provide strong connectivity throughout the home.

Reliable streaming & smart TV

Smooth 4K and 8K streaming, video calls, and gaming without interruptions.

Smart home system support

A strong network foundation keeps every connected system running reliably.

SERVICES

After-care maintenance & remote servicing

A smart home should continue to feel effortless long after installation, with support that stays close after handover.

Proactive care

Remote diagnostics, software updates, and system checks that keep everything running smoothly.

Protecting your investment

Reduce interruptions and help every system perform the way it was designed to.

Support beyond handover

Quick adjustments, troubleshooting, and ongoing maintenance whenever it's needed.

Personalized control. Effortless living.

We offer a considered suite of smart home technology that blends comfort, security, and entertainment — designed around the way each homeowner actually lives.

Innovative Automation.
Intelligent Security.
Effortless Living.

ABOUT US

Designed for homes that deserve more thoughtful technology.

Vihera Technologies brings connectivity, security, comfort, and control together in **one coordinated plan** for the home.

From early design through ongoing support, every system is planned around **the way a home is actually lived in** — not just how it looks on paper. The result is technology that feels considered, reliable, and easy to live with, long after installation.

VIHERA TECHNOLOGIES

Designed for homes that need technology to feel effortless.

We help homeowners and builders plan connected systems with practical performance and long-term comfort in mind.
